### DETAILED ACTION

This Office action is in response to the communication filed January 30, 2003, Paper No.

23.

Claims 26-35, 41-44 are pending in the instant application.

### *Election/Restriction*

Pursuant to 35 U.S.C. 121 and 37 C.F.R. 1.141, the fifty-six SEQ ID Nos. of claims 26, 32 and 33 are subject to restriction. As per M.P.E.P. 2434, "the Commissioner has partially waived the requirements of 37 C.F.R. 1.141 and will permit a reasonable number of such nucleotide sequences to be claimed in a single application." Under this policy, in most cases, up to 10 (ten) independent and distinct nucleotide sequences will be examined in a single application without restriction. Those sequences which are patentably indistinct from the sequence selected by the applicant will also be examined.

Claims 26, 32 and 33 specifically claim oligonucleotide sequences which target and inhibit the expression of tenascin. Each of the sequences of claims 26, 32 and 33 are considered to be structurally independent, because each of the sequences has a unique nucleotide sequence and each represents a different and specific target gene. Furthermore, a search of all the sequences claimed presents an undue burden on the Patent and Trademark Office to search and examine all of the recited sequences. In view of the foregoing, applicants are required to elect up to 10 claimed oligonucleotide sequences from claims 26, 32 and 33. If the oligonucleotide sequences

are related to each other, Applicant should indicate the relationship that exists between the various SEQ ID NOs.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
